

Enfuselle ...anti-aging skin care

I Won't Run Out Again!

Hi Rita -

I am in my mid-30's and have found that my skin is drier and less responsive to moisturizers. I had been trying a couple different products: Lancome, Nivea, Nutragena, etc. I started using Enfuselle products in Dec 1998.

I started using the daytime moisturizer and night time pm repair. Immediately I noticed an improvement in my skin. What I like about Enfuselle is how it is absorbed deep into my skin - it doesn't leave any greasy feeling, but my skin feels more supple right away. Wrinkles and pores are much less noticeable and my skin feels firmer. I also use the body moisturizer – and it is wonderful as well. This fall - I was very busy and hadn't gotten an order in for Enfuselle when I ran out, and so used some old stuff in my cabinet. Either my skin didn't feel any better for using the other moisturizer, or it felt greasy - the stuff seemed to stay on the surface and sit there. Within 2-3 days of receiving my Enfuselle order, my co-workers commented that I looked great - like I had gotten plenty of rest and I looked better. Thank you, Rita, for introducing me to Enfuselle 2 years ago - I won't let myself run out again!

CALMING COMPLEX TO ACHIEVE HYDRATED, SMOOTH, SOFT SKIN

For all skin types – For men, women, children

I was so pleased to get the following testimonials on one of my favorite Shaklee products -Calming Complex. Not only is it "calming and soothing" to the skin but it gives deep hydration. Both oily and dry skin folks will benefit from Calming Complex -- it has a "balancing" effect, leaving the skin neither oily or dry – just smooth and soft.

I use Calming Complex twice a day:

1. In the morning I put the Minerelles Foundation in the palm of my hand and add Calming Complex ... one pump, mix and apply to my face. I love the consistency and the great natural coverage I get from this combination.

2. In the evening I put a small amount of C+E in the palm of my hand, mix it around some with my finger, add Calming Complex ..one pump, mix and apply to my face. Again the consistency and ease of applying C+E with this combination is especially nice and of course the main benefit is the hydration of my skin.

MEN who have irritated skin from shaving, would benefit tremendously by using Calming Complex after shaving.

Hair Stylist and Cosmetologist talks about "Calming Complex"

SENSITIVE SKIN, ROSACEA, FACIAL WAXING, EYE BROW TREATMENTS

I had recently asked for information from Shaklee about persons with Rosacea. I was immediately swamped with information about the Enfuselle products and how to go about using it with sensitive skin and skin with Rosacea.

I am a Hair Stylist and Cosmetologist. I have now implemented using the Purifying Toner and Calming Complex with my clients after a Facial waxing.

I have male and female clients who get their eyebrows, face, lips and chins waxed. Furthermore, anytime this is done, the face usually has a redness that stays with them until they get home and a few hours after-wards. Also, they experience bumps, swelling, and sometimes a little tenderness and soreness.

I had previously used a cooling gel from the shop that works at cooling the skin afterwards, but that's all it

does. So I tried the Purifying Toner and then the Calming Complex. Are you ready for this: It not only kept the face from flaming, bumping and swelling, but before the client even left the salon the redness was gone. You would never have known they had a waxing done.

Most males definitely don't want anyone to know they are getting their brows cleaned up, and women don't want the world to know, they are getting their faces waxed. Now, not a soul would even guess they'd had it done. The Calming Complex took care of everything. I now use the Calming Complex for all my clients, not just the Rosacea clients.

Pass this on to all the Hair Stylists Cosmetologists that you know. Have them read this email so that they can implement this into their routine and make a difference for their clients who trust them.

MORE SUCCESS STORIES WITH THIS GREAT PRODUCT:

Dry Skin :

Probably one of the most undersold, magnificent products in Shaklee !!!! I've had notoriously dry skin all my life, but not any more, thanks to Shaklee's Calming Complex. People much younger than me (I'm 71) want to know my secret. I use Enfuselle -- C&E Repair and Calming Complex--what a wonder!!!!!!!

I've used it over the last several years on people with Eczema; jungle fungus from Korea where nothing else would agree with their skin; people with medication that was drying out their skin who had smeared everything from a \$75 a jar product and ended up using Enfuselle Calming Complex.

At a much younger age, the only good thing I can say about dry skin is I did not have the worries of Acne--but dry skin causes cells to flatten down and not accept moisture. WITH DRY SKIN & ALL, -- I HAVE AGED MUCH, MUCH , MUCH MORE GRACEFULLY THAN MY WONDERFUL FRIENDS WITH "NORMAL SKIN" THANKS

SHAKLEE FOR MY MOST FAVORITE PRODUCT OF ALL.
Vivian

After Facial Wax:

Hi Phyllis,

a) It's my personal favorite face and neck product! I use it religiously every single day on my face and neck.

b) Whenever I have my upper lip waxed to remove my 'menopausal mustache'(-), I apply Calming Complex right over top of the so-called soothing cream (NOT!) the waxing technician puts on afterwards. I find that our Calming Complex works great each & very time to do what their creams don't - soothe the irritated skin from the mechanical act of pulling off the wax strips!

c) I keep a bottle in my purse at all times for 'just in case' something ever happens and a soothing cream is called for:-)

Hope this helps! Peace, Mare, Southern Ontario, Canada

Deep Moisturizing:

I have loved Calming Complex from it's introduction!!!! I live in a very dry climate and have very dry skin, and this is one of the products that has consistently kept my skin more moist. getting the small drop of C&E repair to cover the entire face and throat (remember to care for your throat as much as your face!!!!) was a challenge until I started putting it in my Calming Complex; now i can make sure all skin gets it's Repair and it's super moisturizer!!!! Calming Complex's original name was Beauty Recovery Complex, and I think that was an excellent description. Annie

Itchy, Irritated Skin:

Oh my gosh, Calming Complex is an amazing product, for anyone who has skin!

Itchies, rashes, burns, dry wrinkled parts, it works for everybody. I have had great results with allergic itchies, and just kept applying Calming Complex until the itching stopped. With dry skin, or after the Enfutox has hardened, and before any moisturizer, Calming Complex goes on, and "sucks" the moisturizer right in to your

skin. It is a wonderful gift, and with the pump, portion control is easy. So grateful, Kerry Steeg

Healing :

I just read on Team 21 about using it on excema. I have tried it for the past two nights on my foot. Just the tiniest amount. I actually just slid my finger across the top of the bottle. Not only did the itching stop but it is healing. Also my sons are fair and always have shaving irritation. I bought some for each one. They say it works great. Sherry

Problem Skin ... Skin Allergies

"I am a 49 year old gal that has suffered with skin allergies most of my life with skin eruptions on various parts of my body, but for the last two years they have manifested themselves on my face and neck. You name the face product and I have probably tried it with very poor results it has been extremely discouraging because EVERY PRODUCT LINE seemed to aggravate the condition. I had red, inflamed skin around the eyes and the bridge of the nose, above the upper lip area, and circling down and around to the chin. It also affected the side of my neck. **I had episodes of such extreme inflammation, itching and burning that I missed work just so I could allow the cortisone medication my doctor prescribed to do it's work without any interference from other substances such as makeup, soap, or creams.** The recovery time from such an episode would be about 4 days however, it was never really a complete healing, and I could expect a recurrence in about 4 to 7 days.

I decided to increase my intake of Omega-3 oils and I started to use Enfuselle products, beginning with only the Hydrating Cleansing Lotion, Hydrating Toner, and A.M. Treatment. Enfuselle is the first product line that did not burn my face when I cleaned it. Nor did the toner or morning treatment. That encouraged me to try the C&E Repair P.M., and I am thanking the dear Lord every day that I did. My skin is greatly improved. It has more clarity and evenness of tone and smoothness. I don't use nearly as much moisturizer as I used to because my skin isn't as dry. It does not flake as

it used to and it does not get red and inflamed. Now, two and a half months later, it is not completely clear,

but the difference is VERY dramatic. I have not needed the cortisone cream any more. These products are fabulous to say the least. I have been telling everyone I know about Enfuselle. First, I became a Shaklee product user. Then I became a Shaklee product believer." Dale Eustice

My Calming Complex stories:

1-My customer's husband had Hepatitis C and along with it a weeping rash on his ankles, legs, arms and hands that nothing had helped - include prescriptions from their physician. He started taking Nutriferon and using Calming Complex on the rash. Almost immediately the rash began to dry up and was soon completely healed. And the next time he had blood tests, his viral count had dropped dramatically.

2-My daughter had rosacea on her cheeks and bridge of her nose. She had a prescription ointment for bedtime, but no apparent improvement. I put Calming Complex on it and the redness and bumps began subsiding on the first day.

Please understand, I am not saying Calming Complex cured anything - but it certainly helped the annoying skin symptoms. Sue Smith

Dog Attack:

Just want to report how grateful I am for Shaklee's wonderful products.

My recent experience with C&E Repair is this ... on June 19th I was attacked by a dog and he bit me on the face. His teeth penetrated in four places under my eyebrow and also on my nose and cheek. Initially I was a terrible mess to look at. I slathered it with Calming Complex and C&E Repair plus took loads of supplements to aid healing. It will be two weeks tomorrow and now you have to strain to see where my face was damaged.

So I am eternally grateful. It is fascinating to watch and experience the healing from well nourished cellular tissue. Martha Willmore
