## VIVIX AND BLOOD PRESSURE

*My blood pressure is going down to the point that the doctor has taken away my blood pressure pills. I have never had blood pressure readings at these numbers, that I can remember. I have been taking blood pressure meds for at least 15 years. I have more energy and my blood pressure is normal without my blood pressure meds. I haven't changed anything in my daily routine except taking Vivix! Nancy Geisel*

## Pregnancy after 14 years

Steve and I have been married for 14 years. In the first 5 years of our marriage, we spent so much time with infertility doctors. I was told that I would not be able to have children without in-vitro. We have 9 year old boy/girl twins because of the in-vitro. In 2011 we started using Shaklee. I slowly stopped taking all my medication for severe allergies, asthma, and endometriosis. My body started healing itself. We then started the Vitalizer and continued to feel better. My entire family was now off all medication. Then in 2014 my husband and I started the RX for Health (Protein, NutriFeron, Vivix, and Vitalizer). We just found out I am 10 weeks pregnant! My dream has always been to become pregnant all by myself. My twins started their life in a lab and then were put inside me. This baby was created with just my husband and me. We did not have a room of doctors and nurses wishing us well as they implanted the embryos. I am so thankful for Shaklee!

**Antioxidant-Rich Energy Drink**  
Forget coffee  
and amped up sodas!

Shaklee  
**Energizing Tea**  
POMEGRANATE  
NET WT. 0.12 OZ. (3.4 g)

## GLA Complex

Our bodies are supposed to produce GLA to form prostaglandins, a hormone like substance that helps regulate many bodily processes.

At menopause, hormones are out of balance and GLA helps promote balance.

**Prostaglandins are important in regulating things like blood pressure, blood clotting and inflammation.**

**They reduce the symptoms of PMS, breast tenderness, bloating, headaches and hot flashes.**

it's all about which way you look.

### NutriFeron: Major Immune System Builder

"Usually from October to February I would get a very bad cold, which turned into some form of bronchitis, sinusitis, or walking pneumonia. Then I would go on antibiotics. After I started using Shaklee NutriFeron, I have only needed antibiotics ONE time and that has been over a decade. I would not be without this product!"

Cheryl Legg

"My husband was admitted to the hospital 3 times with pneumonia. Since he started taking NutriFeron daily, he has had no reoccurrences!" Gloria W.

### NUTRIFERON for "ALLERGIES"

Works Every  
Time!

### CHOLESTEROL RESULTS

I took the Shaklee Cholesterol Reduction Complex for six months:

Benchmark six months later:

Total cholesterol: 212 to 182

HDL: 48 - 45

LDL: 142 - 123

Triglycerides: 112 - 70

VLDL Cholesterol: 22 - 14

The product produced significant results! I told the doctor that I would never use a drug/medicine to manage my Cholesterol numbers.

If you have a cholesterol problem try this product for six months. Start today and get "your" benchmark and see what can be accomplished in six months. No "side effects" only "side benefits"! Ray Thornton

"Shaklee's Eye Treatment costs \$21.00.

Makes me crazy when people say Shaklee is expensive!"

Stacy Stith

I can honestly say, since I began taking two **Stress Relief Complex** in the morning with my breakfast just 15 days ago, I have not taken one Ibuprofen which is remarkable and unheard of for me. My life literally depended on this! I have suffered from severe headaches the last 15 years, joint problems and aches and pains too much to deal with without the help of Ibuprofen. I knew the risks I was taking with ibuprofen but thought I couldn't live without it. This is saving my life.

DOLLARS!

## Shaklee Get Clean

Get Clean products feature super-concentrated formulas and biodegradable, recyclable, or reduced-waste packaging that eliminate 23 million pounds of packaging waste and 54 million pounds of greenhouse gas emissions. Get Clean products are natural and nontoxic, with no harmful fumes, phosphates, phthalates, or bisphenol-A (BPA).

Accidental ingestion of products can be fatal, and cleaning products are among the products most frequently ingested accidentally by children and pets. Millions of household poisonings are reported each year.

Nine out of ten of these poisonings occur at the home with household cleaning products. The Consumer Products Safety commission reports that "of chemicals commonly found in homes, 150 have been linked to allergies, birth defects, cancer, and psychological abnormalities."

## Vanessa Leaves the Fashion Industry

When Vanessa Muskopf was introduced to Shaklee in 2011, she had built a very successful, lucrative career as Vice President of Merchandising & Design over 20 years. But, she found herself miserable, exhausted, and wanting more out of life. Two years after she and her husband Bill had started their Shaklee business part-time, Vanessa was shocked to lose her job of 17 years due to a "reorganization". Quickly deciding she never wanted to be in that position again, Vanessa left the fashion industry to pursue Shaklee.

Now in control of her own future, Vanessa says, "I could be doing a lot of things, but I choose to own and run a Shaklee business. After all the years in the corporate world, I learned that there is a better way. To be your own boss and to know that you are making a difference in people's lives - that's a pretty awesome place to be!"

Backed by five patents,

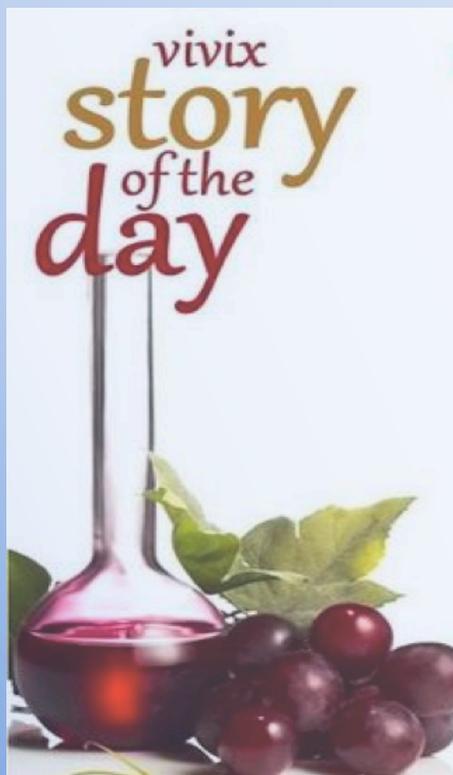

**Vivix** contains a scientifically advanced, proprietary, all-natural blend of powerful polyphenols designed to help protect and repair DNA to **Slow Aging** at the cellular level.

Shaklee's patented extraction process concentrates and preserves these bioactive polyphenols from the world's most potent sources, including the rare muscadine grape.

**RESVERATROL**  
Found in the skin of dark grapes, this polyphenol is like having a dozen cancer-fighting compounds in one!

The TRUTH About  
**CANCER**  
educate • expose • eradicate

**VIVIX**  
13 X More powerful than resveratrol alone.

### **BASAL CELL CANCER and DIABETES**

In October I was diagnosed with a Basel Cell carcinoma (skin cancer) on my left shin.

The Dermatologist cut and scrapped it out and asked to see me again in 6 months. In July the lesion had not healed and appeared to be even larger. We scheduled a surgical procedure to remove the entire lesion including going as deep as needed and excising healthy skin all the way around the lesion ... about the size of a quarter. In August I began taking VIVIX. 4 weeks later, I went for the surgery and the cancer was essentially gone! I've been a dedicated Shaklee nutrition user for many years and VIVIX was the only difference in my supplement program.

My husband has been diabetic for many years and on insulin for a number of those years. He has struggled for a long time to get his A1C levels below 7 (these levels are measured every 6 months and are more important than the daily sugar levels to determine how well you are managing your disease.) After 4 weeks on VIVIX his regular check-up indicated his A1C levels had dropped from 7.2 to 6.6 . We're expecting even better results at the next check-up.
