I own a horse ranch in Madras , OR. Last spring, I had an accident and broke my pelvis in two places. My Shaklee Rep. encouraged me to try the **Physique & Vita Lea Gold**. Well, I was walking without a walker in three weeks, off my crutches by five weeks and returned to riding by month four. It was an unbelievable recovery. I love to start my day with this powerful **muscle builder**. This year I've increased the number of horses on my ranch and I'm in the process of renting out sites for Eclipse watchers. Last year I would have never thought that I would be healthy enough to do these things. Susan B.

"I have my life back . . ."

Women's Health Month inspired me to share my journey to optimal health. I joined Shaklee because of their non-toxic cleaning products and commitment to the golden rule and naturalness of products. However, the reason I remained with Shaklee was because of Shaklee's natural, science based food supplements. Vitalizer was especially appreciated.

Before Shaklee I was on 12 medications that the doctors said I would be on the rest of my life. I was so concerned for my liver, kidneys, and heart since all the drugs had many negative side effects.

I was on prescriptions for narcolepsy, IBS, depression, anxiety, kidney stones, herniated discs, chronic fatigue, and insomnia.

I thought that we ate well organic as much as possible, lots of fruits and veggies, but clearly I had a huge nutritional gap. Within 2 months of increased nutrition I was off ALL of my prescriptions. I have tears just writing that. Narcolepsy alone had me on an "upper" and I was on the highest legally allowed dose. I had no idea that extra nutrition would heal my body to that extent. My doctors were beside themselves when about 90% of my symptoms were eliminated. I went from despair over my health, feeling out of control with no hope of recovery, to the healthiest I have ever been. Nutrition gave me my life back and I would be remiss if I didn't share that with all of you. I love Shaklee's "Vitalizer"!

To Your Good Health! Jennifer

NATURE BRIGHT

THIS PRODUCT REALLY PERFORMS!

Wow! I am never disappointed at how well this non toxic, non bleach stain remover works. My old cutting board & porcelain sinks look brand new. And take a look what it did to my friends old cabbage patch doll!

White and colored clothes look brand new with this laundry booster and stain remover.

HERBAL BLEND MULTI PURPOSE CREAM

Non-greasy Herbal Blend Cream penetrates into the skin, softening dry, rough skin. Clinical tests have proven that with two daily applications – morning and night – feet are less prone to dryness, roughness, redness, or scaling. Herbal Blend soothes, softens and promotes healing of dry, cracked feet or skin anywhere on the body. This emollient-rich formulation with cooling oil of wintergreen and menthol works quickly!

What relief for hot, tired feet – and what a delightfully fresh scent!. Herbal Blend is soothing for

sunburns, insect bites, and other minor irritations. Try it on chapped hands, blisters, athlete's foot, psoriasis and as a foot deodorizer.

More Uses: Dry Itchy Legs, Charley Horses, Aching Muscles, Rashes, Cuts, Bruises, Diaper Rash, Hemorrhoids, Mosquito and Spider Bites, Paper Cuts, Cold Sores, Cramps.

Herbal Blend Multi-Purpose Cream is made from pure extracts of natural soothing herbs including sage, coltsfoot, melissa, horse chestnut, shea butter, yarrow, rosemary, nettle, menthol and more.

Yes, it's a legitimate program. I have been using Shaklee products since I was a child and am a big believer in the products. Through Shaklee I have learned a lot of valuable information about health and the importance of supplementation, chemical free cleaners etc. I tend toward less healthy foods so it is critical for my body to get what it needs through Shaklee vitamins, protein etc.

I have told friends and family about the products through the years. I am not a Shaklee sales person, but rather I have just shared something I believe in. Shaklee has continued to thank me month after month for my sharing efforts. **I receive around \$2-300.00 a month** from this Free Products program. Recently Shaklee started a **"Loyalty Program"** for folks who continue to buy Shaklee products every month ... I qualified for that as well.

I currently have over \$600.00 in loyalty rewards More free products!

The pressure is off because you're not selling just sharing as you would with anything else in life that you believe in. I would recommend taking advantage of this program. I think it is safe to say that I am a Shaklee "Lifer". Todd

CHOICES Get Well Naturally

Pneumonia & Ear Infection "Well Without Antibiotics"

Wanda Hart was diagnosed with walking pneumonia and a serious ear infection. The doctor prescribed an antibiotic for her. She didn't really want to take it, so she thought she would try taking extra supplements first with the idea that if in a few days she didn't feel better, she would switch to the antibiotic.

She had already been taking Shaklee, but added 2 Garlic three times a day, 2 extra Vita-C three times a day, and 6 tablets Shaklee Defend and Resist per day. In one week she was back to going to aerobics class and doing her normal routine. Although her physician didn't like her decision, she was able to get well without the use of antibiotics.

PANCREATIC CANCER "Out of Medical Options!"

In November 2008 I had surgery to remove 60% of my cancerous liver. Then in November 2010, a checkup showed that there were three cancerous growths on my pancreas. The doctor said they were not operable and that most people with this kind of cancer only had six to twelve months to live. He also did not recommend chemo therapy since the chances for success were slim.

I had run out of medical options, so with the help and coaching of my family, I decided to try a nutritional based program. It consisted of juicing fruits and vegetables, Shaklee supplements, alkaline water, and eating only vegetables and whole grains. The basic idea was that the body can heal itself if given a chance. The average person has cancer cells in their body but their immune system is strong enough to reject them. **My immune system was obviously not strong enough to resist the cancer.**

After three months, I went for another cat scan and blood test. My doctor reported to me that the cancerous growths had shrunk significantly. His words were, "I don't know what you are doing, but keep it up because you are going to lick this." I plan on continuing with this preventative program and make this my new "life style".
