## Your Daily Beauty Booster

### NOT ALL COLLAGEN IS THE SAME!

Collagen-9™ is the most complete collagen product, uniquely designed to include all 9 essential amino acids needed to support protein synthesis, including collagen. Combined with biotin and vitamin C, these crucial nutrients aid in promoting healthy hair, skin, nails and joints.

#### What a Pleasant Surprise!

*I am 59 and have never been interested in using collagen...I never knew I really needed it. When Shaklee came out with Collagen-9 this summer, I didn't rush to try it, but knew that if Shaklee came out with their own perfected Collagen...with the Shaklee Difference of all 9 essential amino acids included, etc...it would be the best on the market. I got 1 jar to try in early Sept. just so I would know for myself. I didn't know what to expect...and I had nothing to compare to.*

*Yesterday, I was bummed that I was almost out of my 1st jar. I love adding it to my daily Life Shakes. It adds no taste and makes the texture a little frothier in some flavors. No negative effects. I started feeling results after 1 week! I'm amazed at what it has done for my **skin and nails** already! Much **silkier feel to my skin**, and it's healing my driest skin patches from the inside out! My **nails look better with receding ridges and fewer hangnails**! Such a difference without changing anything else topically! Looking forward to seeing what the next jars will do. I am excited that it may improve my hair and joints, too, and help synthesize protein inside my body! I am a believer now! I will be sharing this with others!*
