

THE INSIDE SCOOP ON PAIN

Shaklee research laboratories have achieved a major breakthrough in the science of pain management. They've solved a problem that has plagued the pharmaceutical industry for years. Joint & Muscle Pain Cream is a Menthol Topical Analgesic with a Patented Liposome Delivery System for Enhanced Penetration.

RELIEF FROM FIBROMYALGIA PAIN: I have had Lyme disease and Fibromyalgia, but thanks to Shaklee I have been able to lead a full and pretty normal life. I have my limitations and when I go past them I pay. I recently started the Pain Relief Complex™ and am thrilled with the results. I slept through the night for the first time in probably 25+ years, and I can go on long trips and hop out of the car pain free. Also, I had an emergency root canal. Having a problem with inflammation anyway, it was horrible. Nothing was helping and the dentist was preparing me for the worst, losing the tooth. Within less than an hour after taking two of the Pain Relief Complex™ I realized that the pain was gone. My dentist ordered six to start some of his patients on. Karen Burroughs. (I have another amazing Fibromyalgia & Lupus success if interested, Judy)

CHIROPRACTOR WITH SEVERE TENDONITIS REPORTS: I developed severe tendonitis in my right shoulder and was not responding to anything because I was constantly working. I was getting very concerned because I was in so much pain it was making it very difficult to offer proper care to my patients. I prayed for help. I was selected to test trial Shaklee's NEW Pain Management products and immediately saw about a 30% improvement. I did an experiment and purposely stopped the products to see if the pain would come back. It didn't. So I continued again, and after 30 days, I can honestly tell you that I had full function back and the **PAIN WAS GONE!!** These products are so needed in our profession. Everyone has had some pain in their life. I have seen so much pain in the 22 years I have been practicing. So go out and try to spread the news to everyone, especially doctors who are out there who can help numerous amounts of people. I am thanking Shaklee for these wonderful products, and more importantly, I am thanking God for Shaklee Corporation. Dr. Joy Buscemi, M.S. Nutrition, Chiropractor

RELIEF FROM SEVERE BACK PAIN: My son has had severe back pain for several weeks and even with strong pain medication (Percoset) still felt pain and discomfort. He applied Shaklee's Joint and Muscle Pain Cream™ and after 20 minutes called to tell me he could feel a difference and could tell it was working. Celeste Edwards

HAIRDRESSER'S STIFF FINGERS BECOME FLEXIBLE! I decided to carry the Joint and Muscle Pain Cream™ with me and have people try it. I went to the beauty shop yesterday and told my operator, Jane about it. In a few minutes the operator across from us was heard saying that she was having a terrible time because her little finger on her right hand was so painful she couldn't bend it. She was having a problem working with scissors, etc. Jane suggested she try some of the cream on her finger which she immediately did. Nothing was said for about 15 minutes until I said, Weeta, can you see any difference in your finger? She turned to me wide-eyed and said, It's a miracle! Look, I can bend my finger all the way down. And it doesn't hurt! With that, Jane took the tube and went all over the shop putting it on people's aches and pains. It was downright exciting! This morning I am taking the tube to bowling and plan to share it with all of the women who have bad knees. JoAnn
